

Barrier Management Aviation Industry Event

March 3 2019, Dubai - United Arab Emirates

Do you know if you are in control of your business and safety critical operations? Risks can only be managed when completely understood. By means of a barrier based approach, complex risks can be visualized in a way that is understandable - and managed in an effective and efficient manner.

CGE Risk Management Solutions cordially invites you to attend this Barrier Management Aviation Industry Event in Dubai, hosted by Emirates: a perfect way to learn more about barrier based risk management from a regulator's perspective, your peers and subject matter experts.

Event topics

During this complimentary event you will be introduced to barrier based risk management. A number of interesting speakers from **Emirates**, **GCAA**, **dndata**, **CHC Helicopter**, **Dubai Air Wing**, **Turkish Airlines**, **Harbottle Hughes** and **CGE** will share their experiences with you.

We will also cover the bowtie method for doing risk assessment and managing risks, how to link incident analysis results back to these risk assessments and how to monitor your barrier performance with risk based audits. You are very welcome to share your views and experiences during this event as well.

Costs & registration

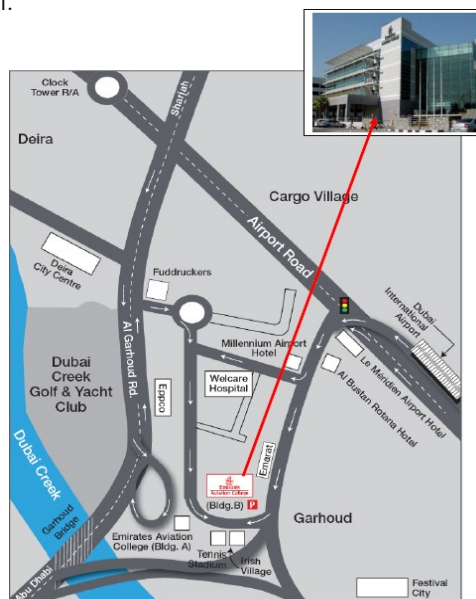

Your participation is free of charge.

Please click [here](#) to sign up.

In case of questions, please contact events@cgerisk.com.

Event venue

This event will be held in the auditorium of the Emirates Aviation College Building B: 31 A St—Dubai, 68VR+JM Dubai Opp: Dubai Tennis Stadium/Irish Village

Who should attend?

We would like to welcome people interested to learn more about risk management with a safety or risk related role in the aviation industry. This event is very suitable for airlines, operators, regulators, ground handling and air navigation service providers.

Related training & events
